

# CLAIMS PROFILE MARCH BREAK EDITION

**Name:** Candice Beach

**Age:** 22 years old

**Home province:** Alberta

**Occupation:** Full-time student and part-time barista

**Hobbies:** Evenings with her friends, TV series, yoga

Candice is a university student working her way through her Bachelor's degree – a student by day and a barista by night. Like other university students, she's been saving for a year towards a much anticipated March break getaway.

Living on a student budget, and not realizing the cost of medical care while travelling, the thought of paying for yet another expense such as travel insurance is not high up on Candice's priority list. She told her mom and dad she'd 'look into it' but Candice is on a budget. Besides, it's only for a week – what can go wrong? A wet pool-side deck changed her mind very quickly, causing a twisted knee and severely sprained wrist.

Cost Breakdown	Punta Cana	Acapulco	Cancún	Florida
<b>Hospital</b> Two nights stay, medication	\$2,560	\$3,830	\$3,880	\$27,875

**Wait! Before you pack your bathing suit, review your policy.** Coverage details aren't the same across all travel insurance policies. This example is illustrative of a typical claim scenario and is not intended to suggest that all travel insurance policies would cover this type of incident nor all associated services depicted. The claims costs listed are averages based on past industry research, and vary from case to case.

If you are thinking of hitting the beach, consult your policy for coverage details, limitations and exclusions.
